## Actors Spend \$50,000 Getting Ready for Benefit Fair

ACTORS' FUND FAIR SCENE. CLINTON AND RUSSELL, ARCHITECTS.

New York, April 30.—"Less a sales-room and more a spectacle," that is the motto of Mr. Charles Burnham and his advisory board of the Actors' Fund fair, which begins on May 9 in the Seventy-first Regiment armory. So architects and decorators have put their heads together and \$15,000 has been spent on the decorative scheme alone.

The great drill room will be transformed to represent a vast garden, in imitation of the Garden of Versailles. In the center there is a white court of honor, which rises almost to the dome, which at night will be illuminated with numberless electric lights. Encircling this court is an inner court, built like a pergola, and covered with flowers and vines. This measures about a hundred feet in diameter, and here will be placed special booths, all in charge of beauties of the stage.

A feature of the garden will be an electric fountain, which will be lighted by multi-colored lamps. Four platforms shaded by evergreen trees will occupy one side of the drill hall. There will be two circular pergolas, each 500 feet long, supported by white Doric columns, on the top of which will be urns filled with flowers.

The larger booths are to be placed under the galleries and separated from the promenade by lattices covered with vines. A novel lighting effect will be achieved by 75 baskets filled with artificial flowers, each flower containing an electric light. All told, 6,000 electric light globes will be used.

There will be a hundred booths on the main floor, where everything from

taffy to automobiles will be sold. In addition there will be a cafe chantant, a "stage and society" circus and a long corridor, called "Music Alley," for singers. Then, too, there will be a Midway Plaisance.

All told there promises to be no end of amusement, and the architects, Messrs. Clinton & Russell, have done their best to prepare a feast for the eye. Mr. Burnham does not hesitate to say:—

"More than \$50,000 will be expended before a single ticket is taken. We have striven to make it the most beautiful indoor scene that has ever been built."

Ask Regal for a pair of those \$1.00 sand glasses which will be sold all next week for only 35c.

**BOTH SIDES STAND PAT ON WATER QUESTION**

(Continued From Page One.)

tion that will secure to the people of El Paso an adequate supply of water during the summer and a final settlement of the difficulties in supplying water before the beginning of another summer, we now here make you an alternative proposition:

First—We will, in all respects, carry out the recommendations of the master upon the consideration that you will do the same, and we here and now offer to the city any reasonable security that it may desire, to bind this company for the full discharge of the duties to be assumed by it in the event of the acceptance of this phase of our proposition.

Willing to Sell. Second—Should the city not desire to

carry out the recommendations of the master and to do those things held by the master to be necessary to be done on the part of the city, then and in that event the International Water company will sell to the city its entire plant upon the same terms that it offered to sell in November, 1909, that is to say: Nine hundred and twenty-seven thousand (\$927,000) dollars, as follows: Four hundred and fifty thousand (\$450,000) dollars in the bonds of the city of El Paso, and the city to assume the outstanding bonded indebtedness, amounting to four hundred and seventy-seven thousand (\$477,000) dollars, and all the costs of the receivership. We call your attention to the fact that this is thirty-eight thousand one hundred and twenty-eight (\$38,128) dollars less than the master finds to be the present value of the property for rate making purposes, he fixing the value at nine hundred and sixty-five thousand one hundred and twenty-eight (\$965,128) dollars, for rate making purposes. This is considerably less than the actual value of the plant.

**Urges Action at Once.** We beg leave to respectfully urge upon you the necessity of action in this matter, one way or the other. The sale at the last figure involves a loss, but one which can be borne, less than the recommendations of the master will not enable the company to meet the duties imposed upon it by the findings of the master. The acceptance of neither of these propositions leaves the city without adequate water facilities, and the company without the ability to be of any further assistance.

In view of the fact that immediate court action must now be taken, in the event of inability to settle our differences out of court, we ask an immediate reply to this letter. Very respectfully,

The International Water Company. By H. J. Simmons, Its President.

**You Save One-third.** During Removal Sale we offer choice of our entire stock of Clocks, Silver Plated Ware, Sterling Silver Photo Frames and Jewel Cases at a discount of 33 1/3 percent. Snyder Jewelry Co.

## PABLO YORDI IN HARD LINES

(Continued From Page One.)

Bank of Jalisco at the time of the swindle, came here from San Luis Potosi to confront Yordi. He declared the little Swiss to be the man who came to him, disguised, in May, 1908, representing himself to be an engineer in charge of special work for the Southern Pacific, and who secured \$1,000 person on a false New York draft and a forged letter of credit.

Percy W. Mann, an American resident of Guaymas for several years, who knew Yordi as an employee of the Guaymas branch of the Bank of Sonora, testified here that he saw Yordi, undisguised, in a local hotel on the night of Sunday, May 24, 1908.

**Barber's Identification.** According to the testimony of Jose Aceves, a local barber, he disguised the Swiss with a false goatee and small side whiskers on the following morning, May 25. Yordi told the barber he was an American detective on the lookout for the men who robbed the Banco Minero of Chihuahua. Aceves identified Yordi in El Paso and has testified him here.

Ferdinand Sustersic, formerly general manager of the Amparo Mining company, of the Etzalan district of this state, who employed Yordi as cashier for nearly a year, has given testimony that he saw Yordi in disguise in this city at the time of the

swindle. Similar testimony was given by Thomas P. Rowe, an Etzalan mining man. Francisco Guerrero, a local tailor, picked Yordi from among a number of prisoners at the state penitentiary and declared him to be the man he fitted with clothes about the time of the swindle.

This action upon the digestive process is of great importance, as it brings to all the tissues and organs of the body the nutriment necessary to their sustenance and indirectly to the whole system strength and vigor. It makes the old feel young and keeps the young strong and vigorous.
